SKILLS USED

MATH & STATS MACHINE LEARNING DATA VIZ

EXPERTISE

# BRIAN R. LEHMAN

## DATA SCIENTIST

### SUMMARY

University level mathematics lecturer turned data miner, Brian’s data storytelling combines a passion for education with rigorous statistics. He builds data experiences to engage, inform, and educate both C-suite execs as well as the general public. His practical research skills are adapted from the data science toolkit including machine learning and quick exploratory analysis.

### RELEVANT EXPERIENCE

PayPal 2020-Present	▲	<b>Data Scientist</b> Model builder directing visualization efforts to bolster trust through explainability. Reasearcher covering the context of making shopping more fair.
Google 2019-2020	▲	<b>Data Visualization Specialist</b> Client-facing researcher crafting data stories in an experimental environment focused on up-leveling the existing sales teams’ conversations with strategic customers through a unique data immersion program.
Twitter 2013-2017	▲	<b>Data Scientist &amp; Visual Storyteller</b> Client-facing researcher designing custom data stories for workshop content that showcases the value in Twitter data to senior leadership at some of the world’s largest brands as well as Twitter’s major conferences.
School of Mines 2008-2013	▲	<b>Mathematics Lecturer</b> University Instructor developing technical content to illustrate complex concepts for calc I-II, differential equations, probability & statistics.

### LANGUAGES

Javascript & D3js	▲	D3js meetup president & co-founder (3+ years)
Python		Language used for ML & exploratory analysis (8+ years)
SQL		Query language used to store & access data (7+ years)

### ACTIVITY VOLUME TIMELINE
